## PERSONAL CARE

There is no need to feel concerned about managing everyday tasks such as showering, toileting, grooming, dressing and taking the correct medication. We can help you feel your best and support you to maintain your independence.

## CLEANING AND HOUSEHOLD TASKS

We provide assistance with domestic chores including light cleaning, vacuuming, dishwashing, clothes washing and changing bed linen. Having extra support could help you to more easily manage everyday activities in your own home safely and independently.

## LIGHT GARDENING

Support to keep the inside and outside of your home well-maintained. Our service can assist by maintaining your home and garden needs including mowing the lawn or climbing a ladder to change a light bulb or smoke alarm battery.

## IN-HOME RESPITE

We understand that caring can be a very rewarding experience but it is also physically and emotionally demanding. If you are someone who cares for others, it is important that you look after your physical and mental wellbeing. Our respite services can provide care for the person you look after so you can have a break.

## NURSING

Our nursing service assists with managing the effects of chronic illness and general health and wellbeing challenges. We work closely with you, your carer, family, GP and health professionals to ensure your health needs are met.
